

HURRICANE ATTACHMENT EFFICIENT. RELIABLE. DURABLE.

A VERSATILE FEATURE FOR JBS SPREADERS.

Available in Narrow Body and Wide Body configurations, the Hurricane Attachment offers versatility and durability. The Narrow Body features two horizontal beaters, while the Wide Body has three. An adjustable rear gate ensures a consistent spread pattern, even in windy conditions.

Powered by gearboxes, the JBS spinners and horizontal beaters require less maintenance and deliver enhanced longevity. Switching from the Vertimax Attachment to the Hurricane Attachment takes under an hour, ensuring efficient adaptability.

- Spreads 2 tons to the acre or more.
- Ideal for low-moisture materials.
- Adjustable rear gate.
- Up to 65-foot spread width.
- Hardox™ spinners.
